RE: Permit-By-Rule Authorization – Transfer of Ownership  
Trimble Street C&D Processing Facility – SWP 19-1426

Dear Mr. Cordesman:

This letter will serve as official notice that this Division has received and approved your Permit-By-Rule notification for change of ownership for the referenced facility's operation, located in Davidson County at 75 Trimble Street, Nashville, Tennessee (latitude 36°08'44.22" N/ longitude 86°45'29.53" W), for a solid waste processing and recycling operation. The new permittee of record will be BFI Waste Services, LLC.

This facility shall be deemed to have a Permit-by-Rule, provided the criteria of Rule 1200-1-7-.02(1)(c)(1)(i) of Tennessee's Solid Waste Processing and Disposal Regulations are met, including the Permit-by-Rule Conditions as submitted by the previous owner. If your operation has changed from the previous operator's Advanced Disposal Services Middle Tennessee, LLC permit-by-rule narrative description for meeting the above criteria, you will need to provide a new notification package, describing your current operation, to Division personnel at the Nashville Environmental Field Office. The registration number for this facility is **SWP 19-1426**. This number should be used on all reports and correspondence to the Department or Division regarding this facility.

Financial Assurance is required for this facility and is currently on file with the Department from Advanced Disposal Services Middle Tennessee, LLC. In accordance with Tennessee Code Annotated (TCA) Section 68-211-116(a), please provide to the Commissioner an instrument that will satisfy the estimated total closure cost, in order for this transfer of registration to be valid. It should be noted that the required amount may be adjusted in the event the maximum storage capacity changes. Please contact Robert Dickinson with the Financial Responsibility Group at (615) 532-0877 if you have questions or need assistance concerning financial assurance.

Mr. Cordesman
